Contents

Volume 71 (1990)

Publishers' Note 1

REVIEW ARTICLE

Nuclear-mitochondrial interrelation in angiosperms
by A. Breiman and E. Galun (Tel Aviv and Rehovot, Israel) ..... 3—19

PHYSIOLOGY AND BIOCHEMISTRY

Induction of zygote formation in *Micrasterias thomasiana* var. *notata*
by M. Imaizumi and Y. Doida (Ohtsu, Japan) ..... 21—28

Ethylene production as an indicator of chilling injury in oil palm (*Elaeis guineensis* Jacq.) somatic embryos
by F. Corbineau, F. Engelmann and D. Côme (Paris and Montpellier, France) ..... 29—34

Anthocyanin synthesis and lengthening in the first leaf of barley isogenic lines
by A.E. Martínez and E.A. Favret (Castelar, Argentina) ..... 35—43

Differential inhibition of plant calcium-dependent protein kinases by long chain fatty acids and other amphiphiles
by G.M. Polya, J. Minichiello, R. Nott, E. Klucis and P.J. Keane (Bundoora, Australia) ..... 45—54

Induction, purification and characterization of barley leaf chitinase
by K.M. Kragh, S. Jacobsen and J.D. Mikkelsen (Roskilde, Frederiksberg, Lyngby and Copenhagen, Denmark) ..... 55—68

Early induction of feedback regulatory responses governing nodulation in soybean
by G. Caetano-Anollés and P.M. Gresshoff (Knoxville, TN) ..... 69—81

CELL AND TISSUE STUDIES IN VITRO

Shoot induction competence and callus determination in *Populus deltoides*
by G.D. Coleman and S.G. Ernst (Lincoln, NE) ..... 83—92

Paraffinic hydrocarbons in heterotrophic, photomixotrophic and photoautotrophic cell suspensions of *Euphorbia characias* L.
by F. Carriere, P.Chagvardieff, G. Gil, M. Pean, J.C. Sigoillot and P. Tapie (Marseille and Saint-Paul-lez-Durance, France) ..... 93—98

Flatpea organogenesis from callus cultures
by B.A. Coulombe, J.G. Foster, S.W. Van Scoyoc and R.E. Veilleux (Blacksburg, VA and Beckley, WV) ..... 99—104

Inhibition of callus development from protoplasts of *Lycopersicon peruvianum* by extracellular polysaccharides of *Clavibacter michiganensis* subsp. *michiganensis*
by R.W. van den Bulk, H.J.M. Löffler and J.J.M. Dons (Wageningen, The Netherlands) ..... 105—112

Gibberellin A_3 reverts floral primordia to vegetative growth in sorghum
by S. Bhaskaran, R.H. Smith and R.A. Frederiksen (College Station, TX) ..... 113—118

GENERAL

Polypeptide pattern of the insoluble wall component of *Chlamydomonas reinhardii* and its variation during the vegetative cell cycle
by H.-P. Vogeler, J. Voigt and W.A. König (Hamburg and Braunschweig, F.R.G.) ..... 119—128

Differences in the distribution of mannose- and galactose-binding lectins in peanut tissues
by I.J. Law, M.M. Kriel and B.W. Strijdom (Pretoria, South Africa) ..... 129—135

REVIEW ARTICLE

Rough thylakoids: translation on photosynthetic membranes
by A.T. Jagendorf and A. Michaels (Ithaca, NY; Be'er Sheva, Israel) ..... 137—145

PHYSIOLOGY AND BIOCHEMISTRY

Occurrence of chlorophyllides in developing, light grown leaves of ant species
by M. Rise and E.E. Goldschmidt (Rehovot, Israel) ..... 147—151

The relationship between chlorophyll accumulation and endogenous cytokinin in the greening cotyledons of *Pinus nigra* Arn.
by G. Jelić and M. Bogdanović (Banatska, Yugoslavia) ..... 153—157

Kinetic mechanism of potato tuber succinate semialdehyde dehydrogenase
by V.S. Narayan and P.M. Nair (Bombay, India) ..... 159—166

Abscission: the carbohydrate factor
by Z. Mao and L.E. Craker (Amherst, MA) ..... 167—172

Purification and molecular forms of NAPD$^+$-malate dehydrogenase from two populations of the C_4 weed *Echinochloa crus-galli* (L.) Beauv. (Poaceae)
by F. Vairinhos and J.-P. Simon (Montreal, Canada) ..... 173—177

Sinapolyl glucose synthesis by extracts of wild carrot cell cultures
by F.T. Halaweish and D.K. Dougall (Knoxville, TN) ..... 179—184

Purification and characterization of multiple forms of endochitinase from wheat leaves
by J.P. Ride and M.S. Barber (Birmingham, U.K.) ..... 185—197

Use of the pyrophosphatase activity as a reliable tonoplast marker in maize roots
by A. Chanson (Lausanne, Switzerland) ..... 199—207

Phosphorus assimilation in mycorrhizal moong (*Vigna radiata* L.) plants under different phosphorus levels
by S. Thapar, B.S. Sekhon, A. Atwal and R. Singh (Ludhiana, India) ..... 209—214

Effect of water stress on photosynthetic activity in the *Medicago-Rhizobium-Glomus* symbiosis
by M. Sánchez-Díaz, M. Pardo, M. Antolín, J. Peña and J. Aguirreolea (Pamplona, Spain) ..... 215—221

GENETICS AND MOLECULAR BIOLOGY

Characterisation of a rape (*Brassica napus* L.) extensin gene encoding a polypeptide relatively rich in tyrosine
by L.N. Gatehouse, I.M. Evans, J.A. Gatehouse and R.R.D. Croy (Durham, U.K.) ..... 223—231

CELL AND TISSUE STUDIES IN VITRO

In vitro morphogenesis in the globe artichoke (*Cynara scolymus* L.)
by R.J. Ordas, R. Tavazza and G. Ancora (Rome, Italy; Oviedo, Spain) ..... 233—237

Sequential hormone requirement for growth and organogenesis of *Petunia hybrida* protoplasts derived calli
by J.-P. Renaudin, C. Tournaire, M. Brillat and B. Teyssendier de la Serve (Dijon, France) ..... 239—250

Comparison between tobacco cell lines either resistant or sensitive (wild type) to exogenous choline: intracellular accumulation of free choline
by N. Guern, M. Gawer, D. Chervin and P. Mazliak (Paris, France) ..... 251—259

Enhanced vigor of dry somatic embryos of *Medicago sativa* L. with increased sucrose
by K. Anandarajah and B.D. McKersie (Guelph, Canada) ..... 261—266

GENERAL

Alterations in the host-parasite interface between *Phytophthora infestans* and tomato leaf cells after treatment with fosetyl-Al
by Y. Jiang (Stuttgart, F.R.G.) ..... 267—276

Book Reviews ..... 277—278

Announcement 279

Subject Index Volume 71 ..... 281—284

Author Index Volume 71 285

Contents Volume 71 ..... 287—288
